STEEL HOARDING

Steel hoarding

A secure perimeter for your site has never been as easy and affordable. **Heras Steelhoard** provides your site with an elite security fencing solution & offers you complete peace of mind with national wind loading calculations to satisfy Temporary Works Forum (TWf) 1220-02 & BS5975. In ground or above ground, **Steelhoard** is a fencing system which is robust, professional and can withstand multiple uses and transportation, providing you with the highest level of security and cost efficiency.

DIG-FX Ltd are approved contract partners and installers for Heras Mobile UK nationwide. Our knowledge and expertise can be used to accommodate your specific and individual requirements. These can include and are not limited to, your corporate colour scheme, modular pedestrian and vehicle access gates.

HERAS

Key Features

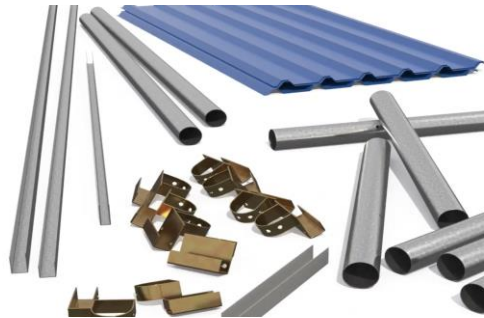

- ◆ **Modular Elite security fencing** solution
- ◆ **Cost effective: 10 reuses** and a design life span of **25 years** possible with correct installation and dismantling.
- ◆ **Durability:** basic installation can withstand nationwide wind loading requirements for the UK
- ◆ **Sustainability:** all components are **100% recyclable**
- ◆ **Corporate:** powder coating to feature your corporate RAL or BS colour.

In-ground Heras Steelhoard

Option 1 – In-ground Steelhoard:

A unique modular design with in-ground spigots, set in concrete being the only sacrificial component of the design.

Mobile

Security

Mobile
Fencing &
Security

*Gate posts and ground spigots are not reusable.

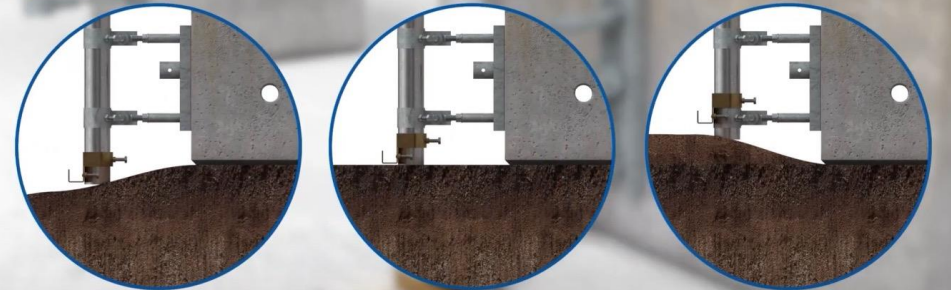

Above ground Heras Steelhoard

Option 2 – Above-ground Steelhoard:

When ground conditions dictate a restricted NO-DIG area, the ballast block modular system takes control. With no sacrificial components this modular system can easily be integrated with the In-Ground system.

Security

Maximum flexibility

HERAS

Two options that integrate with each other to accommodate the majority (if not all) challenging ground/site conditions.

Pedestrian and Vehicle Access Gates

Depending on your site requirements, within the **Steelhoard** products are modular pedestrian and vehicle access gates. These can be installed to meet your requirements providing you with a continuous and aesthetically pleasing fence line.

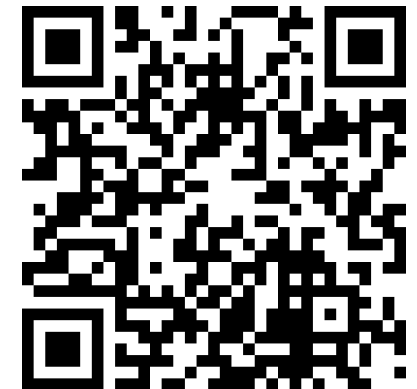

DIG-FX are trusted contract partners and installers of Heras **Steelhoard** and can ensure your site security needs are met. Below are QR codes demonstrating the installation and professional look of Heras Steel hoard.
